

Dear Parent(s):

Galatia CUSD is currently using Chalkable Café in our school food service operation to keep track of deposits and items sold to your child's account along with other great features! Chalkable Café includes a mobile app, **My Chalkable Café**, that can be used for the following items to ensure that you are always connected to your child's school even if you are too busy to open the app:

- Monitor your child's balance and transaction history
- Update their account with any food allergies or dietary notes and enable or disable the option to purchase a la carte items.
- Receive push notifications whenever your child has eaten lunch, made a deposit to their account, or has a low or negative balance.
- Receive immediate push notifications from your school for non-food service related items such as notifications of school closures, registration or application deadlines, special events or important messages regarding your child (ex: "Your child is sick. Please contact the school for more information").

Along with child lunch activity and school communications, the My Chalkable Café app also includes the exciting Chalkable Café Rewards program (dependent on school's option to participate). This program allows you to earn credits that can then be applied to your child's lunch account so they can then purchase lunch or a la carte items for free with the credits redeemed. You can earn the credits the following ways:

- Watch short 15-30 second video advertisements.
- Take brief surveys that can generally be completed in under a minute.
- Install apps from My Chalkable Café sponsors.

In conjunction with the My Chalkable Café mobile app, there is also a **My Chalkable Café Kids** app as well that can be used for kids to also earn credits on their accounts and be able to view their current balance (also dependent on school's option to participate). When used in conjunction with the My Chalkable Café parent app, you can earn up to three times the credit than just the use of the My Chalkable Café parent app alone. There is no limit as to how many points you can accumulate daily and every 50 points can be converted to 25 cents.

To get started, simply follow these steps:

- Search the App Store for "My Chalkable Cafe" or "My Chalkable Cafe Kids"
- Open the mobile app, click the "Register" button, enter the district code "C6278" and proceed to enter in your information.
- Upon completing the registration form, check your e-mail for a verification link and click on it.
- Log into the app and link your child(ren) via the "Add Account" menu option.

We hope that you find the My Chalkable Café mobile app helpful for keeping connected with your child's school and that the My Chalkable Café Rewards program is beneficial to your family as well. If you have any issues linking your child's account, please notify Cheryl Dwyer at 268-4194 or cldwyer@galatiak12.org for assistance.
